

# IFDS Student Workshop

April 20th, 2018

## Researchers' Link Discovery Building

The Institute for Foundations of Data Science is hosting its first student-run workshop.

The goal of the workshop is to foster interdisciplinary collaboration between

student and post-doctoral researchers across various disciplines such as **mathematics, statistics, computer science** and **electrical engineering**.

**Organizers:** Alisha Zachariah, Xuezhou Zhang, Yilin Zhang.

Registration, schedule and more on our webpage:
